Navigating Forward

We are all aging

We are more diverse

65+ population from 1:8 to 1:5 by
2030

We are living in a new post-COVID
paradigm

Independence

Food Insecurity

Social Isolation

Ageism

Abuse & Fraud

Emergency Preparedness

Fitness

Falls Prevention

Affordable Health & Long-Term Care

Caregiving

Mobility

Financial Adequacy

Housing &
Aging In Place

Mental Acuity

End of Life

Social Isolation

Worse than smoking or obesity

Increases health care costs

17% of 65+ isolated

Less independent, depressed, adverse health effects

More of Society at Risk

- Social Isolation
- Food insufficiency
- Financial adequacy
- Affordable housing

Assessment Stages of Aging

Independence

Interdependence

Dependency

Crisis management

End of life

Aging in a Virtual World

Know-how

Security

A decorative graphic on the left side of the slide. It features a light blue silhouette of a state, likely Washington, with a white outline. In the bottom left corner, there is a row of colored pencils in various colors: dark brown, light brown, red, orange, and yellow. The pencils are standing upright, with their sharpened tips pointing upwards.
